A studious member of the major, Stephen Ellis, senior, is humble in his achievements. Graduating this semester, he is also earning a B.A. in French and Francophone Studies, works as a C.A., a communication trainer, loves baseball, and has his own band. They don’t have a name, but they will be playing on the quad on February 22nd. He will also be going to Washington D.C. to present at the Popular Culture Association Convention with Hillary Wysocki in March. Stephen has also been known to make people chuckle from his use of puns and “eye rolling” jokes.
