WETLAND TECHNICIAN POSITION-Full Time Temporary
NORTHERN PRAIRIE WILDLIFE RESEARCH CENTER

JOB DESCRIPTION:
Northern Prairie Wildlife Research Center (NPWRC) (http://www.npwrc.usgs.gov) a United States Geological Survey research center, located in Jamestown, ND, is seeking 1 full-time biological science technician to assist with a wetlands monitoring project. Employment will be from May 14th to August 17th 2012. Employee will perform various tasks including using and maintaining automated sampling devices, collecting soil, gas fluxes, and surface and groundwater samples. General knowledge or experience pertaining to prairie pothole wetland ecology, plant identification, and soils is beneficial. Experience collecting gas flux samples is preferred. The ability to work independently and with others is essential. Employee must be in good physical condition with the ability to walk long distances and wade through wetlands while carrying field equipment. The principal duty station will be located at NPWRC in Jamestown, ND. Housing is not provided. Employee must be willing to travel occasionally and work under inclement weather conditions in remote locations.

REQUIREMENTS:
Applicants must have a valid driver’s license.

PAY:
Up to $15.00 per hour depending on experience.
