

## **Intern – Summer experience opportunities for Geology Students**

There are a number of opportunities for Geology undergraduates with varying application deadlines. Here's a list of links to start you out. **Note:** Plan to request letters of recommendation at least 4 weeks before the due date.

**American Geological Institute** – a great opportunity for people interested in public policy or in science writing; Washington DC – deadline March 8

<http://www.earthmagazine.org/earth/article/155-7d8-a-1f>

**Barrick Gold Corporation** - search “internship” for multiple opportunities

<http://jobs.barrick.com/>

## **Carnegie Institution of Washington - Summer Intern Program in Geoscience**

Supports 10-week summer internships during which undergraduate students conduct individual research projects with guidance from a DTM or Geophysical Laboratory staff member. Eligible research areas are Experimental Petrology, Mineralogy, Seismology, Planetary Geology, Astronomy, Mineral Physics, Biogeochemistry, Geochemistry, and Cosmochemistry. Interns receive a \$4,500 stipend. See

<http://people.gi.ciw.edu/summerscholars/> for details. Deadline: Feb 28, 2013

## **CIRES – Cooperative Institute for Research in Environmental Sciences**

List of multiple internship opportunities at numerous locations and organizations.

## **GeoCorps America (Geological Society of America)**

Interested in doing geoscience in some of America's most beautiful public lands?

The Geological Society of America (GSA) has posted nearly 100 new GeoCorps America positions for summer 2013 on the GeoCorps website! Applications can be submitted online from now through February 4, 2013 (noon, MST). [http://rock.geosociety.org/g\\_corps/2013/allJobDescriptions.asp](http://rock.geosociety.org/g_corps/2013/allJobDescriptions.asp)

GeoCorps features paid geoscience internships in some of America's most amazing public lands, which are managed by our partner agencies—the National Park Service, the U.S. Forest Service, and the Bureau of Land Management. This round of projects features some of the nation's premier public lands, such as Grand Canyon National Park (AZ), Grand Staircase-Escalante National Monument (UT), and the Tongass National Forest (AK). It also includes some extremely remote, wild places, like Denali National Park & Preserve (AK), as well as sites closer to an urban setting, such as Rock Creek Park (Washington, DC). GeoCorps project areas cover a broad range of subjects, including geology, hydrology, paleontology, mapping, GIS (Geographic Information Systems), minerals, soils, glaciology, geo-hazards, cave/karst science, astronomy, education, and interpretation.

and the Ocean Sciences. [http://www.nsf.gov/crssprgm/reu/list\\_result.cfm?unitid=5053](http://www.nsf.gov/crssprgm/reu/list_result.cfm?unitid=5053)

NASA's Planetary Geology and Geophysics  
Undergraduate Research Program (PGGURP)

UNDERGRADUATE SUMMER INTERNSHIP  
IN PLANETARY GEOSCIENCES

## NASA Undergraduate Internship: Summer 2013

We pair qualified undergraduates with NASA-funded investigators at research locations around the country for 8 weeks during the summer. Students will spend the summer at the NASA scientist's home institution.

Applications are due February 1, 2013, and contain:

1. online [application form](#)
2. two letters of reference
3. official transcripts from all undergraduate institutions.

## Welcome Students and Recent Graduates

**PATHWAYS**  
FOR STUDENTS & RECENT GRADUATES  
TO FEDERAL CAREERS

Under President Obama's leadership, the Federal Government has taken steps to help students and recent graduates join the Federal service. New opportunities will appear on USAJOBS as agencies post them this fall. We encourage you to visit this site periodically, or set up a [saved search](#).

UPDATE (August 2012): Get the most from your job search with our [video tutorial](#). We'll walk you through how to find internships and entry-level jobs and how to set up an automatic search.

[Search Jobs](#) ▶

### Internship Program

The Internship Program replaces the Student Career Experience Program (SCEP) and Student Temporary Employment Program (STEP). This Program is designed to provide students enrolled in a wide variety of educational institutions, from high school to graduate level, with opportunities to work in agencies and explore Federal careers while still in school and while getting paid for the work performed. Students who successfully complete the program may be eligible for conversion to a permanent job in the civil service. Additional information about the Internship Program can be found at [USAJOBS](#) [\[2\]](#). Here are some key provisions of the Internship Program.

#### Eligibility

- Current students in an accredited high school, college (including 4-year colleges/universities, community colleges, and junior colleges); professional, technical, vocational, and trade school; advanced degree programs; or other qualifying educational institution pursuing a qualifying degree or certificate.

## STUDENT GRANTS

### Geological Society of America - Graduate and Undergraduate Student Research Grants -

Deadline: Feb 01, 2013

**Graduate Student Research Grants** (2/1 annually) provide partial support of master's and doctoral thesis research in the geological sciences for graduate students enrolled in universities in the U.S., Canada, Mexico, and Central America.

**Undergraduate Student Research Grants** (deadlines vary by region) support individual research by sophomore or junior undergraduates. Applicants must be GSA members.

See <http://www.geosociety.org/grants/> for details.

### WHITE MOUNTAIN RESEARCH CENTER STUDENT MINI-GRANTS APPLICATIONS FOR 2013

The UC White Mountain Research Center (WMRC) mini-grants in support of original graduate student research during 2013. Grants of between \$500 and \$1000 will be awarded to individuals on a competitive basis to offset the cost of meals and lodging at one or more of the WMRC research stations (Owens Valley, Crooked Creek, Barcroft, and Summit). No travels funds are available. This grant is open to students of all educational institutions. Deadline: FEBRUARY 1, 2013. Further information is available from WMRC Director, Antony Orme, at [orme@geog.ucla.edu](mailto:orme@geog.ucla.edu)
