You should always be sure to prepare your classroom materials using the current version of the TurningPoint software in use at Humboldt State University. The following TurningPoint applications are supported at HSU:

- TurningPoint 5.1.3 for PC
- TurningPoint 5.1.3 for Mac

This software was updated in Fall 2012.

Click on the appropriate link below to download the HSU version of TurningPoint software onto your laptop or other computer you plan to use to prepare clicker-driven instructional materials:
