

What specific things do I need to do to stay compliant?

Here's what needs to be part of your routine to avoid interrupting your access to the HSU network:

- Patched and updated operating system
- Up-to-date antivirus from the [approved list](#)
- No network address translation device present
- No peer-to-peer software running
- No [proxy](#) setting problems
- Windows [firewall](#) enabled
- Windows configured to notify you when new updates are ready to download and install

Contact the [Technology Help Desk](#) at (707) 826-4357 or help@humboldt.edu if you have questions.
