

Off-campus Moodle users

Last Updated: January 3, 2013 - 11:02am

System: Moodle

Status: Degraded Service

Issue start: Jan 4 2013 - 08:00

Estimated resolution time: Jan 7 2013 - 17:00

Who is affected: Off-campus Moodle Users

Affected in what way: IF YOU ARE WORKING AT HOME you may experience some access issues during the transfer to Moodle 2.3

What happened: Moodle 2.3 will re-directed to the learn.humboldt.edu address this Friday. The goal is full functionality by Monday the 7th. On Campus, the switch should be seamless. IF YOU ARE WORKING AT HOME you may experience some access issues during the transfer. This is due to "caching" on your computers. Moodle is NOT broken, it just the various servers are catching up. Please Plan accordingly. From the 7th on, log into Moodle normally via MyHumboldt. Call Moodle Support with Questions.
