

CAS Single Sign-On

Last Updated: April 18, 2013 - 1:00pm

System: Other

Status: Available

Issue start: Apr 18 2013 - 13:55

Estimated resolution time: Apr 18 2013 - 14:55

Who is affected: Campus Users

Affected in what way: We are currently experiencing problems with our CAS Single Sign-On service. Users are unable to log in to the myHumboldt portal. HOWEVER, for users who are/were already logged in, they're fine. It's only users currently trying to log in.

What happened: We are currently investigating. Stay tuned for updates. One of the redundant CAS nodes experienced an error, and has been isolated. CAS is working again. ITS will investigate the error logs, and re-enter the failed node into the mix during the Maintenance Window on Sunday.
