

Why does nothing happen when I click on the Emergency Contacts tab in myHumboldt?

Are you running your browser in compatibility mode? That's the usual reason for this non-responsiveness. To fix the problem, open the **Tools** menu and uncheck the **Compatibility View** option, then refresh your myHumboldt screen. If that doesn't fix the problem, check with the [Technology Help Desk](#), send email to help@humboldt.edu, or call (707) 822-HELP (4357)
