

Theater Arts Bldg. ONLY - Planned Wireless Network Outage - All Wifi Networks

Last Updated: April 8, 2014 - 1:20pm

System: Wireless Network

Status: Planned Outage

Issue start: Apr 11 2014 - 07:30

Estimated resolution time: Apr 11 2014 - 12:00

Who is affected: All users in Theater Arts Building with Mobile Devices

Affected in what way: WiFi enabled devices will not be able to locate any official University Wireless Networks, including HSUWireless, HSUGuest, HSUWireless-Secure among others during this planned outage in Theater Arts Building 10, ONLY.

Workaround: Mobile devices equipped with 3 & 4G are a possible workaround. Instructors in the building requiring network access should ensure his/her/* device is registered on the University wired network in advance, and that a wired network jack is available in any instructional space ASAP. A list of available classroom Ethernet jacks is available online:

http://www.humboldt.edu/tns/active_classrooms.php .

What happened: The Department of Theater, Film, & Dance has requested all wireless access points inside the John Van Duzer Theater and surrounding area be disabled for a Spring Preview Event. This is to help determine the source of interference affecting the Theater sound system.
