

Grant or Department Funded Printing Authorization

If you would like to allow your employees or students to charge their grant- or department-related printing done in labs to your grant or department, please complete this form. You will need to know the names and HSU User Names (e.g., abc123) of the people you would like to authorize. Once your grant or department is set up in our printing system, your designated users will be prompted to charge their printing to either the grant/department or their personal printing funds.
