

Secure Wireless :: Security Requirements

- 1) Your device must have support for 802.11g or better.
- 2) Your device must support PEAP with MSCHAPv2
- 3) Your device must be capable of decoding AES [encryption](#) [1].
- 4) Your [HSU User Name](#) [2] and Password must not be expired.
- 5) You must be affiliated with the University as a Student, Instructor, Staff, or Faculty member (guests are also granted access for a limited duration up to a few days).

These requirements are in addition to the requirements for the regular wireless network HSUWireless.
