

Smart Classrooms :: Room List

The list below details all the equipment available in every Smart Classroom maintained by ITS.

Note that, as of the beginning of the 2013-2014 academic year, all lock boxes have been removed from Labs and [Smart Classrooms](#) [1]; the projector remote will be at the instructor stations in all Labs.

Additional equipment is available for checkout from [Classroom Technology Services](#) [2] for classroom use on a temporary basis.

Instructions for using the equipment in each Smart Classroom are posted in the classrooms and are available for download in PDF format by clicking on the appropriate link in the list below.
