

Wireless :: Windows 7 Registration Instructions

Step 1: Connect to the Campus Wireless Network

Enable wireless networking on your Windows computer and connect to **HSUWireless** using the icon in your System Tray.

Step 2: Once you are connected to HSUWireless, **open a web browser**.

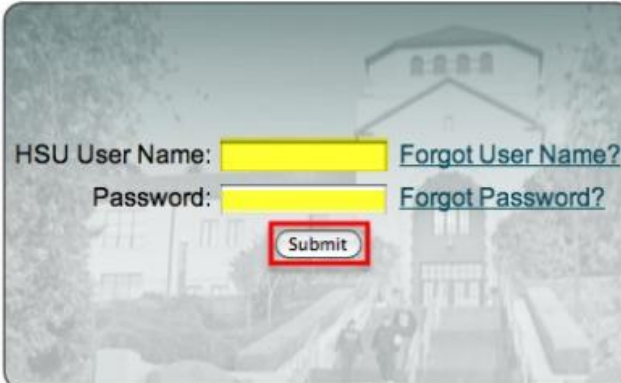

You should see the HSU Wireless Network log-on page. Enter your [HSU User Name](#) [1] and **password** and click **Submit**.

HUMBOLDT STATE UNIVERSITY

Log on to the HSU Wireless Network

Please enter your HSU User Name and Password below to accept the University's Appropriate Use Policy and complete the login process.

HSU User Name: [Forgot User Name?](#)

Password: [Forgot Password?](#)

Step 3: Install the [PolicyKey](#) [2].

Click the link to accept the terms and install the Safe*Connect client software, including the PolicyKey - your OS (Windows Vista/7) will automatically be indicated on your screen.

HUMBOLDT STATE UNIVERSITY

POLICY KEY REQUIRED!

To ensure the security of your data and that of everyone else on the campus network, all computers must meet certain basic requirements, including up-to-date security patches and antivirus software. All network users must install a software policy key which checks the security status of your computer before access is granted. By downloading the Policy Key, you accept the terms of HSU's Appropriate Use Policy.

Install Policy Key

[Windows Vista or 7: Click here to accept terms and install the Policy Key for Windows Vista or 7](#)

When the file download dialog box appears:

IE & Safari users: ----->Click Open and follow the on-screen instructions to install the software.

Firefox & Netscape users: Click Save and then run the Installer when the download is complete.

You must be a computer administrator to install the software.
