

# College Scheduler User Guide

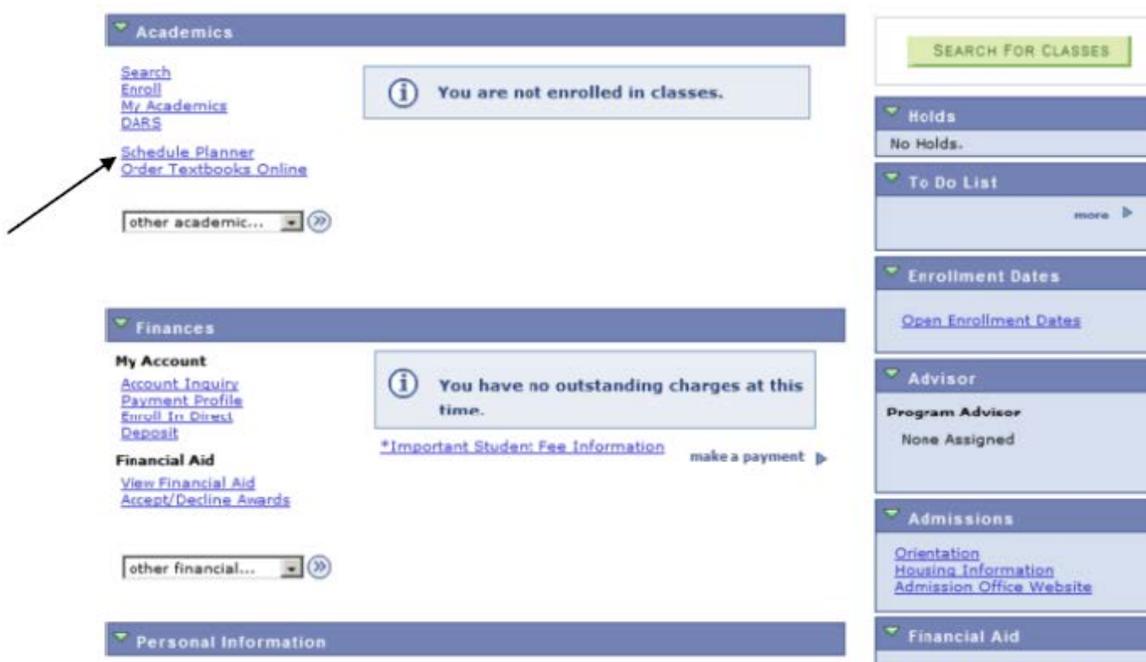

\*Please note that Schedule Planner is a **planning tool only**.

The tool does not recognize certain dependencies such as requisite courses, enrollment holds, instructor consent requirements, etc. If one of your courses is affected by these dependencies, you may receive an error message when you attempt to enroll in Student Center.

**For best results**, choose your courses first, and continue to refine those choices prior to adding your break times.

For different browsers, please ensure you are allowing pop-up messages. If a pop-up appears for <https://humboldt.collegescheduler.com/admin>, choose "Allow". In Internet Explorer you may need to set this link up as a trusted site.

Students will log into PeopleSoft and navigate to Self-Service -> Student Center. The "Schedule Planner" link will be visible under the "DARS" link.

Click on the "Schedule Planner" link and it will take you to the Start Scheduler page, see below.

## Schedule Planner

The Schedule Planner helps you plan your class schedule. You may need to disable the pop-up blocker of your internet browser to successfully launch the Schedule Planner.

### Instructions:

1. [CLICK HERE](#) to open the Schedule Planner in a pop-up window.
2. Return to this window after clicking 'Send Schedule to Shopping Cart'
3. Visit the [COURSE ENROLLMENT](#) page from your Student Center to continue with course enrollment; click the 'Import Cart' button (see diagram).

4. Proceed with all enrollment steps until you receive the success or error message.

Success: enrolled		Error: unable to add class	
Class	Message	Status	
HIST 110	Success: This class has been added to your schedule.	✓	

OR

Success: enrolled		Error: unable to add class	
Class	Message	Status	
COMM 100	Error: Instructor Consent Required. You must obtain permission to take this class. If you have a permission number, click Add Another Class, click the class link, enter the number and resubmit.	✗	

Students please read the instructions on this page. When you are ready, click on the “Click Here” link to start the Schedule Planner which will pop-up an instructions page – see next page. This page requires you to click “Ok” which will then take you to the Schedule Planner home page. The point of this page is to give you tips on what to expect.

Please note if you come across a course that shows the "Location" as both "online" and in a classroom (example from above "GH 218"), this is considered a "hybrid" course. This means the course will occur both online and in the classroom. The course instructor will define the schedule and correlating percentage of time that will be spent in each "location", example the hybrid course may meet face-to-face 50% (in classroom) and then engage in asynchronous online activities during the remaining 50% of the time (or 75% face-to-face and 25% online, etc.).

## Schedules

Once you have added your courses and breaks in College Scheduler, click the "Generate Schedules" pushbutton. Depending on the courses requested and the break times, you will either receive generated schedules OR you will see a number of suggestions for making changes to your choices in order to generate the schedules. You will need to use the View/Edit links next to the courses to view and refine your choices against their break times to generate a schedule.

When all courses and breaks are entered and you have reviewed all the possible generated schedules, choose the courses that best fits your needs by placing a Checkmark in the left hand box next to the Course name and click Generate Schedules. See an example below.
