Humboldt State University owns and operates its own telephone switch, often referred to as a PBX (Private Branch Exchange). The campus PBX is a Model MD110, manufactured by Ericsson.

The MD110 supports two kinds of signaling; digital and analog. Digital telephones are proprietary, and are designed to take full advantage of the rich feature set available with the MD110.

The Ericsson digital telephones are used with the MD110 telephone switch and provide single-key access to many of the MD110 features.

The 203 instrument offers on-hook dialing, programmable function keys, adjustable ringer tone and volume, speaker phone, and the display feature which displays date, time, number dialed, as well as programming information.

---

**Important Note:**

Digital and Analog telephones are **NOT** interchangeable.

**Damage may result, either to the instrument or the PBX if these telephones are plugged into the wrong jack.**

If unsure, please call extension 5000 for assistance.

### Quick Start

#### Transfer (Page 9)

To transfer with party on the line

- Press **Access 2**
- Dial second party
- Press **Transfer**
- Hang up

#### Call Waiting (Page 11)

To send to busy extension

- Press **5**
- Busy tone changes to ring
- Wait for party to answer

#### Automatic Call-Back (On-campus Only) (Page 16)

**Extension is busy or does not answer:**

- Press **6**
- Listen for 3 beeps
- When extension becomes available your phone will fast ring for eight seconds
- Lift handset before ringing stops
- Called extension rings
Function Keys

The 203 digital telephone has 26 function keys. Twelve of these keys have fixed functions, and the remaining 14 can be programmed for additional features.

**FIXED KEYS**

<table>
<thead>
<tr>
<th>Key</th>
<th>Function</th>

</thead>
<tbody>
<tr>
<td>F1</td>
<td>F2</td>
<td>F3</td>
<td>F4</td>
</tr>
</tbody>
</table>

- **START** Starts the timer. While running STOP is displayed in the F1 position. To stop the timer, press F1 again.
- **RST** Press F2 to reset the timer to 0. Press F1 to start it again.
- **DATE** Toggles display between the date and the timer function
- **EXIT** Press F4 to exit the current menu
Features

PLACING CALLS

To place a call
- Lift handset and dial OR
- Dial without lifting handset (*Call set up is heard through speaker. See below*)
- Pickup handset to speak OR
- Listen and speak hands-free through speaker and microphone.

To receive a call or calls on other lines
- Lift handset OR
- Press flashing key (*Call is heard through speaker. Speak to microphone.*)

SPEAKER

The 203 is equipped with a speaker and microphone to permit hands-free conversations. The lamp to the left of the speaker key indicates hands-free mode. To change from handset to hands-free listening, press the speaker key and replace handset into cradle. To change from hands-free to handset operation, pick up handset from cradle. Adjust speaker volume with the + and - buttons.

DIRECTED CALL PICK UP

Any call ringing into a campus extension may be picked up from another telephone. This feature works only on extensions which have not initiated the Divert to Voice Mail when Busy feature.

To pick up a call ringing on another line
- Dial the number of the ringing extension
- Listen for the busy tone
- Press 8

GROUP CALL PICK UP

Multiple extensions may be put into a common pick-up group. Calls to an extension within the group may be picked up by another extension within the group.

To pick up a call within the pickup group
- Press 7 7
**Features**

**EXCLUSIVE HOLD**
Calls may be placed on hold and cannot be retrieved from another telephone.

**To place call on Exclusive Hold**
- Press line key that received call
- OR
  - Press vacant line key (Access 1, Access 2 or Hold)
  - Lamp will change from steady light to a slow flashing light

**Retrieve Call on Exclusive Hold**
- Press line key
- Slow flash goes steady

**COMMON HOLD**
The Common Hold feature permits a user to place a party on hold. A call placed on common hold may be picked up from another extension with the same line appearance.

**With the party on the line**
- Press \textit{Cm Hold}
- Hang up

**To retrieve a call on Common Hold**

\textit{From your desk}
- Pick up the handset
- Press flashing line to retrieve call

\textit{From another location}
- Dial the extension where call placed on hold
- Listen for busy tone
- Press 8

\textit{Note: If you have diverted your calls to go to voice mail when you are on the telephone, this feature does not work.}
Features

INQUIRY/CONSULTATION HOLD
The Inquiry feature allows a user to place a call on exclusive hold that cannot be picked up by another extension. While on hold, the user can alternate between the original call and a second call.

**With the party on the line**
- Press Access 2
- Dial second party

**To alternate between parties**
- Press Access 2 OR Access 1
  OR
- Initiate a conference call with all parties by pressing Conf.

CONFERENCE
The Conference feature allows a user to initiate a conference call with up to eight parties. After establishing a conference call, conference members may drop out or be added at any time.

**With the first party on the line**
- Press Access 2
- Dial second party

**After Answer**
- Press Conf.
- Listen for long beep
- All parties connected
- Repeat steps to connect up to 8 parties

**No Answer**
- Press Clear
Features

TRANSFER
Transfer allows a station user to forward a call to another extension. Calls may be “blind” transferred by pressing Transfer before the other extension answers or the call may be “announced” by waiting for the other extension to answer.

To transfer with the party on the line
- Press Access 2
- Dial second party

After answer
- Announce Call
- Press Transfer
- Hang up

Before answer
- Press Transfer
- Hang up

If busy or no answer
- Press Clear
- Press Access 1
- Returned to caller

INDICATOR LAMPS
Each function key has an associated Lamp.

<table>
<thead>
<tr>
<th>Lamp is</th>
<th>Indicating</th>
</tr>
</thead>
<tbody>
<tr>
<td>On</td>
<td>Line engaged or feature activated</td>
</tr>
<tr>
<td>Off</td>
<td>Line available or feature is idle</td>
</tr>
<tr>
<td>Flash</td>
<td>Incoming Call</td>
</tr>
<tr>
<td>Slow Flash</td>
<td>Call on hold</td>
</tr>
<tr>
<td>Fast Flash</td>
<td>Line in use by another</td>
</tr>
</tbody>
</table>

RING VOLUME
The ringer volume changes with the + and - buttons.

RING TONE
The ringer tone is changed using the Prog key and the digit keys 0-9.

To change ring tone
- Press Prog
- A digit from 0-9 to select the ring. A sample of the ring will be played
- Press Prog
DISTINCTIVE RINGS
Distinctive ringing provides a unique ringing cadence which permits station users to distinguish between different types of incoming calls. Three types of ringing signals are provided.

<table>
<thead>
<tr>
<th>Ring Signal</th>
<th>Indication</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single Ring</td>
<td>On-campus call</td>
</tr>
<tr>
<td>Double Ring</td>
<td>Off-campus call</td>
</tr>
<tr>
<td>Interrupted Fast Ring</td>
<td>Call back</td>
</tr>
</tbody>
</table>

RING OPTIONS
Ring options can be programmed by the user to flash lamps and delay or suspend ringing as required.

To change ring options
- Press Prog
- Press the line key to be changed (Lamp is on)
- Enter ring option
- Press line key again
- Press Prog
- Lamp is off

<table>
<thead>
<tr>
<th>Ring Options</th>

<td></td>
</tr>
</tbody>
</table>

CALL WAITING
Call Waiting alerts a station engaged on a call that another call is attempting to ring in. Campus extensions can choose to send a call waiting tone to another campus extension. Call waiting tone is automatic from off campus calls.

**To Send call waiting tone**
- Hear busy signal
- Press **5**
- Busy tone changes to ring if Call Waiting is accepted
- Wait for party to answer

**To Answer Call Waiting**
- Press the flashing key, **Access 2**
Features

EXTERNAL NUMBER REDIAL
Like the Speed Redial feature, the External Number Redial (ENR) feature will dial an off-campus number. The difference is that you will choose the number to save.

To save a number using External Number Redial

- Dial an off-campus number
- Press the ENR function key to save the number onto that key

To use the External Number Redial function key

- Press the ENR key to dial the number
- The number will be dialed automatically

Pressing this key will recall the stored number and dial it automatically.

TELEPHONE NUMBER STORE (TNS)
TNS keys may be programmed to store key sequences up to 20 keystrokes.

To Store Number

- Press $\text{Prog}$
- Press vacant TNS key
  Lamp is on
- Enter the number (include 9 if off-campus)
- Press TNS key
  Lamp is off
- Press $\text{Prog}$
  Lamp is off

To use a stored number

- Press TNS key
  Number is automatically dialed

To clear a Stored Number

- Press $\text{Prog}$
- Press TNS key you wish to clear
  Lamp is on
- Press the Clear Key
- Press TNS key again
  Lamp is off
- Press $\text{Prog}$
  Lamp is off
Features

CALL DIVERSION

The Call Diversion feature re-routes a station’s incoming calls to an alternate number. There are four types of call diversion; All Calls, No Answer, Busy and Follow Me. Preprogrammed answering points may be voice mail or to another campus extension. Pre-programming of the answer point is done by the system administrator.

The Divert All Calls feature automatically reroutes all incoming calls to a preprogrammed answering point.

**Divert All Calls**
- Lift handset
- Press \*2#
- Listen for 3 beeps and then the dial tone
- Hang up

**Undivert All Calls**
- Lift handset
- Press #2#
- Listen for dial tone
- Hang up

The Diversion No Answer feature re-routes all incoming calls not answered within a given interval (four to five rings) to the preprogrammed answering point. After the first diversion, subsequent calls are diverted in two rings until a call is again placed or answered from the extension.

**Divert No Answer**
- Lift Handset
- Press \*21#
- Listen for 3 beeps and then the dial tone
- Hang up

**Undivert No Answer**
- Lift Handset
- Press #21#
- Listen for dial tone
- Hang up

The Diversion Busy feature diverts incoming calls placed to a busy station to a preprogrammed answering point, e.g. voice mail.

*Note: If this option is in place a caller to your extension may not use automatic call back, nor will you be able to pick up calls on your instrument from another telephone.*

**Divert Busy**
- Lift handset
- Press \*22#
- Listen for 3 beeps and then the dial tone
- Hang up

**Undivert Busy**
- Lift handset
- Press #22#
- Listen for dial tone
- Hang up
Features

FOLLOW ME
The Follow Me feature allows a user to forward all calls to another campus extension. It is possible to redirect and/or cancel the Follow Me from the other extension without returning to your station.

**Activate Follow Me**
- Lift handset
- Press \*2\*2
- Dial extension where calls are to follow to
- Press #
- Listen for 3 beeps and then the dial tone
- Hang up

**Redirect Follow Me**
- Lift handset at current answer point
- Press \*2\*2
- Dial your extension
- Press *
- Dial the new answer point number
- Press #
- Listen for dial tone
- Hang up

**Cancel Follow Me from Answer Point**
- Lift handset
- Press #2*
- Dial your extension
- Press #
- Listen for 3 beeps and then the dial tone
- Hang up

**Your Phone**
- Lift handset
- Press #2#
- Listen for dial tone
- Hang up

Note: Stuttered dial tone will remind the user that calls are diverted.

SPEED REDIAL (Off-campus calls only)
This Speed Redial feature will redial the last off-campus number called.

To use speed dial
- Press \*\*\*
Features

INDIVIDUAL ABBREVIATED DIALING (optional feature programmed by System Administrator)

The Individual Abbreviated Dialing (IAD) feature allows users to program a speed dial code for frequently called numbers or features. When an IAD code is dialed, the system automatically dials the preprogrammed number. Stations can have up to ten individual abbreviated numbers of up to 20 digits in length. IAD numbers can represent on-campus and/or off-campus numbers, as well as feature codes.

To Program or Reprogram Numbers
- Lift the handset
- Press * 5 1 *
- Enter one Digit 0-9 to represent dialed number
- Press *
- Enter number (include access code 9 if off-campus)
- Press #
- Hang up

To Dial Abbreviated Number
- Lift handset
- Press * * 0-9
- The system will dial automatically

To Cancel/Reprogram Abbreviated Number
- Lift the handset
- Press # 5 1 * 0-9 #
- Hang Up or Follow program numbers (see above)

To Cancel All Abbreviated Numbers
- Lift the handset
- Press # 5 1 #
- Hang Up
Features

AUTOMATIC CALL BACK (On-campus calls only)

Automatic Call Back (ACB) feature allows a user calling a station that is busy, or does not answer, to request a callback when the station becomes free. (The user may make and/or receive calls while the Automatic Call Back feature is in effect.) When the station marked for call back becomes available, the system will ring the user’s extension with eight seconds of fast ringing. Lifting the handset will place a call to the extension marked for Automatic Call Back. (The user must pick up the handset before the ringing stops, or the call back will be canceled.)

Several Automatic Call Backs can be activated at the same time. An Automatic Call Back cannot be initiated on an off-campus number.

**To request an automatic call back**

- Dial the on-campus extension, hear busy signal or no answer
- Press 6
- Listen for three beeps
- Hang Up
- When marked extension becomes available, there will be eight seconds of fast ringing. Lift the handset, the extension on call back will ring

**To cancel an automatic call back**

**One Extension**

- Lift handset
- Press # 6 *
- Dial extension number
- Press #

**All Extensions**

- Lift handset
- Press # 6 #
**Additional Features**

**ACCEPT SECOND CALL (ODN2)**
When engaged on a call, other incoming campus calls will ring through on the alternate access line if available and if ODN2 is set.

**ADDITIONAL DIRECTORY NUMBER (ADN)**
Additional extension numbers may be programmed into a function key. Calls may be placed and received from these extensions.

**HOTLINE**
This feature allows you to establish an immediate non-dialed connection between two stations. Each station requires a Hotline key dedicated to the other.

**INTERCOM (ICL)**
A function key may be programmed to allow individuals to be members of an intercom group. Calls may be made to an intercom member by pressing the intercom function key and dialing the last two digits of the intercom member’s extension.

**MULTIPLE DIRECTORY NUMBER (MDN)**
Function keys may be programmed to have a line appearance of another campus extension. Calls may be placed or received from these extensions.

**MULTIPLE DIRECTORY SPEED DIAL (MNS)**
This feature is similar to the Multiple Directory Number; however, it will speed dial the line it is associated to.

**VOICE MAIL MESSAGE WAITING (MEW)**
A key programmed with this feature will light when a voice mail message is waiting. In this state and when the key is depressed, the system will dial the voice messaging server.

Voice Mail Account

Shared Type Mailbox
- If at your desk
  - Call the voicemail system number 6999
  - When prompted for mailbox #, enter your 4 digit mailbox #
  - When prompted for security code, enter your code

- If at another shared mailbox desk
  - Call the voicemail system number 6999
  - When prompted for mailbox #, enter your 4 digit mailbox #
  - When prompted for security code, enter your code

- If at an extension that is a single mailbox
  - Call the voicemail system number 6999
  - The system will prompt you for a security code
  - Press * # (the star key then the pound key)
  - When prompted for mailbox #, enter your 4 digit mailbox #
  - When prompted for security code, enter your code

If setting up mailbox for first time, be sure to note your new password.

Single Type Mailbox
- From your phone
  - Call the voicemail system number 6999
  - When prompted for security code, enter your code

- From another phone
  - Call the voicemail system number 6999
  - The system will prompt you for a security code
  - Press * # (the star key then the pound key)
  - When prompted for mailbox #, enter your 4 digit mailbox #
  - When prompted for security code, enter your code

If setting up mailbox for first time, be sure to note your new password.

CALLING IN FROM OFF-CAMPUS
- Call the system number = 707-826-6999 or toll free = 866-826-4867
- When prompted “If you have a mailbox on the system”, press # (pound)
- When prompted for mailbox #, enter your 4 digit mailbox #
- When prompted for security code, enter your code
