Each day all students spend up to two hours sight-reading chamber music in groups. Please describe your student’s sight reading abilities and quickness of learning. Give an example of a chamber music work that he/she might be able to play functionally on a first or second reading.

Please describe your student's experience in chamber music. We are interested especially in the student's ability to be independent rhythmically, to add musical interpretations, and to get along well with others.

What Solo literature have you been working on with your student recently and for how long?
